

Industrial Mechanic (Millwright)

We are Cantech, a wholly owned subsidiary of Intertape Polymer Group Inc. (IPG) which is an acknowledged leader in the packaging industry. Its performance products, including tapes and cloths, are designed for demanding aerospace, automotive and industrial applications and are sold to a broad range of industry/specialty distributors, retail stores and large end-users in diverse industries. At IPG our vision is to become the global leader in packaging and protective solutions. We will achieve our goal by committing and executing our strategic plan in accordance with our values, to hear more about us please visit our website <https://www.itape.com/>

We are seeking a certified Industrial Mechanic to join our organization. The Industrial Mechanic assists in the production process by performing regular maintenance and repairs on machinery and mechanical equipment. The Industrial Mechanic is also the go-to person for issues with production lines, equipment, and other machines.

Duties and Responsibilities

- Daily machinery checks;
- Cleaning and lubricating machinery;
- Correcting issues with machinery;
- Removing/replacing defective parts;
- Installing new machinery;
- Educating production workers about preventative maintenance;
- Preparing maintenance reports;
- Suggesting future repairs;
- Ordering parts and supplies;
- Additional duties as required

Qualifications and Skills

- Must be a certified Industrial Mechanic
- A minimum of 3 to 5 years of experience in an industrial manufacturing environment is required.
- Strong manual dexterity;
- Manufacturing fabrication experience;
- Mechanical and technical skills;
- Precision machining and welding;
- Ability to interpret blueprints;
- Demonstrated ability to troubleshoot, diagnose and problem solve malfunctions;
- Ability to work under tight deadlines and under minimum supervision;
- Electro-mechanical aptitude, familiarity with plastics or converting machinery is required;
- Work planning and continuous improvement experience would be considered an asset;

- Problem-solving and critical thinking skills;
- A good sense of risk management;
- Ability to read blueprints and schematics;

Intertape Polymer has a competitive compensation and benefits package and is committed to providing a safe work environment.
