RELIEF DEVELOPMENTAL SUPPORT WORKER

Open Hands operates several different programs ranging from home share to Supported Independent Living models to 24/7 residential services and activity supports. While supporting adults and children within these programs we work with people and their family to determine how we can provide them with obtaining the best lives possible.

We are currently searching for relief workers whose values match ours in achieving great lives for people with disabilities in our community. We are looking for people who are enthusiastic, creative, empathetic and dedicated to working with people.

The ideal candidate would have an education background in the field of human services, such as a Developmental Services Worker, Social Services Worker or Personal Support Worker diploma. We also consider other credentials with relevant experiences.

As we do provide services to people in 24/7 service models, candidates must be willing to work flexible hours. Parts of the job include assisting individuals with all aspects of life including assisting people with personal care using a dignified and respectful approach. New workers are often excited to know that we match them to a work location where their interests and hobbies, background and skills can be welcomed and shared with individuals we support. This is important to ensure that a person centered approach can be used in helping people achieve goals and the life that people want to live.

Salary: \$19.03 to \$21.40 per hour

Please email resumes to dvallieres@open-hands.ca or fax to 613-932-5134

Vision

"Individuals with a developmental disability live healthy, safe and secure lives as participating members of society, through equitable access to the broadest range of societal supports and opportunities.

En tant que membres à part entière de la société, les personnes ayant une déficience intellectuelle vivent en santé et en pleine sécurité.

Ils s'épanouissent avec dignité, profitant d'un accès équitable à un éventail de services sociaux des plus vastes.
