# Assembler

**Join Pulsar Measurement working on a Global team that is shaping the future of level and flow instrumentation.**

## Your role

Converting subassemblies into finished product for orders and stocking. Maintain records of customer orders. Perform hi pot testing of finished product. Work with other departments to ensure adequate supply of subassemblies and sensors. Other tasks as determined by Production Manager.

## Our Business

This is an exciting time to join Pulsar Measurement and the wider TASI Group. Pulsar Measurement has built an enviable reputation based on our customer centric ethos, which means Pulsar Measurement continues to attract a growing global customer presence. Pulsar Measurement has built up a well-respected brand within the Americas Water and Industrial sectors strengthened by the amalgamation of Greyline Instruments Inc. Combined with future new developments the product portfolio has now expanded to cover many solutions for level and flow applications. Join us on this exciting journey.

Pulsar Measurement is a trading name of Greyline Instruments Inc.
