- Installing new machinery;
- Educating production workers about preventative maintenance;
- Preparing maintenance reports;
- Welding and Fabrication;
- General Machining;
- Suggesting future repairs;
- Creating requests for parts and supplies;
- Related tasks as requested by supervisor

Essential Skills and Experience

- Interprovincial Qualification (Red Seal) is required;
- A minimum of 3 to 5 years of experience in an industrial manufacturing environment is required;
- Strong manual dexterity;
- Mechanical and technical skills;
- Precision machining, welding and fabrication;
- Ability to interpret blueprints and schematics;
- Demonstrated ability to troubleshoot, diagnose and problem solve malfunctions;
- Ability to work under tight deadlines and under minimum supervision;
- Familiarity with plastics or converting machinery would be considered an asset;
- Work planning and continuous improvement experience would be considered an asset;
- Problem-solving and critical thinking skills;
- A good sense of risk management;
- Work flexible shifts

Industrial Mechanic (Millwright)
