

Founded in 1971, WITRON has become an international leader in automated storage logistics with more than 5,100 colleagues worldwide tending to the planning, realization, and maintenance of our highly automated systems. Our teams – far more than just mechanics, electronic technicians, or mechatronic engineers – act as professionals who are perfectly equipped with full power for finding the best solution to the specific needs of each of our customers. Our growing Canadian division now has close to 600 employees. Our corporate culture, which is characterized by passion, cooperation, and the drive to move things forward, has allowed us to offer 200 internal promotions to our Canadian employees in recent years.
