| Job Title: Roller |
|--------------------------|

Reports To: General Manager

Job Summary

The Roller, under the direction of the General Manager, will primarily be responsible to roll spray material and fibreglass in a uniform manner at the required pace. The roller is also responsible for plant maintenance and cleaning throughout and at the end of the day.

Competencies

- Economical - Ensures work is completed in a way that is conscientious of company resources.
- Attention to Detail - Attends to details and pursues quality in the accomplishment of tasks, regardless of the volume of duties encountered.
- Commitment to Health and Safety - Works in compliance with all applicable health and safety legislation and established policies and procedures.
- Teamwork - Works cooperatively and effectively with others to reach a common goal. Participates actively in group activities fostering a team environment.

Job Duties

- Ensure compliance with company policies and standards for cost control, waste reduction, quality, safety, and complete and on-time delivery
- Ensure high standards of workmanship and efficiency
- Ensure outputs meet production schedules, safety and quality standards
- Roll out spray material on acrylic shell to achieve uniformity, proper adherence and good appearance using due care to prevent breakage
- Grind or polish surfaces using abrasive tools
- Transport raw materials, parts, finished products, and packaging materials throughout the plant and warehouse manually
- Adhere to established safe working procedures and wear the proper safety equipment at all times
- Ensure proper use of required personal protective equipment at all times
- Mark, record, and report defective products
- Maintain a clean working area free from dirt and debris between tasks and at end of day
- Help during end of day plant clean up
- Fill in when needed on various jobs

Job Requirements

- Ability to work in a hot, humid and noisy environment
- Ability to work individually as well as part of a team
- Dedication to safety measures and best practices
- Knowledge of tool and equipment safety
- Knowledge of workplace safety legislation and safe lifting and handling procedures
- Ability to operate required equipment in a safe and responsible manner
- Ability to lift heavy objects, walk, and stand for long periods of time
- Ability to perform strenuous physical labour
- Knowledge and understanding of WHMIS required
- Must be able to understand and communicate in English (written and verbal)
- Demonstrated ability to operate material-handling equipment

Work Conditions

- Repetitive work
- Extended periods of standing, stooping, bending, kneeling, and other physically demanding conditions
- Lifting, moving, or manipulating bulky and heavy objects with required assistance
- Environment may be extremely busy and noisy. Temperature will fluctuate throughout plant and will vary from cool to hot and humid.
- Exposure to hazards associated with the industry
- Use of required personal protective equipment
- Operation and use of necessary tools, machinery, or equipment
- Attendance and participation in training
