

Functional Area: Production
Location: Long Sault, Ontario
Job Title: Production Operator
Reporting Line: Production Manager – Kim Fields
Job Ref: None -

Production Operator

Join Our Team

Pulsar Measurement is a global leader in level and flow instrumentation, and we're growing. Join our Long Sault production team and play a key role in building high-quality electronic products used across water and industrial sectors worldwide.

What You'll Do

- Assemble electronic and mechanical components into finished products
- Program and test printed circuit boards using PC-based software
- Prepare cables and perform wiring tasks
- Build subassemblies using a variety of tools and equipment
- Work across different production cells based on business needs
- Maintain high standards of quality and workmanship
- Contribute to a clean, organized, and efficient work environment
- Collaborate with team members to meet daily production targets

What We're Looking For

- Experience in electronics or manufacturing environments (preferred)
- Hands-on experience with tools such as crimpers, drill presses, and rivet guns

- Strong attention to detail and commitment to quality
- Ability to work in a fast-paced, team-oriented environment
- Good organizational and time management skills
- Willingness to learn and take on a variety of tasks

Why Join Pulsar Measurement

- Be part of a growing global organization
- Work in a collaborative, team-driven environment
- Gain hands-on experience with advanced electronic products
- Opportunities to learn and develop new skills

Our Commitment

We are committed to building an inclusive workplace where everyone is respected, valued, and empowered to contribute. Diverse perspectives make us stronger—and better.

Please forward resume with cover letter to Frederick Guerin at fguerin@pulsarmeasurement.com
